

INS 11th World Congress - Pre-Conference - Saturday, 8 June 2013

Solving Problems at the Neural Interface

Chairmen: Dr. Dominique Durand & Dr. Elliot Krames

0800-0900	<i>Buffet Breakfast</i>	
0900-0915	Welcome Address	Dominique M. Durand
0915-0945	Interfacing with the Nervous System	Thomas Stieglitz
0945-1015	Sensing and Stimulating	Daryl Kipke
1015-1045	Tissue Reaction	Ravi Bellamkonda
1045-1100	<i>Break</i>	
1100-1130	Advances in SCS Technology: Recording from SCS Electrodes and Closed Loop Stimulation	John Parker
1130-1200	Epilepsy	Andres Lozano
1200-1230	Q & A	
1230-1400	Keynote Address: Understanding the Future of Brain Neuromodulation <i>and Lunch</i>	Alim Benabid
1400-1430	Advances in Visual Prostheses	Rolf Eckmiller
1430-1500	Advances in Electrical Nerve Block	Niloy Bhadra
1500-1530	Advances in Interfacing with the Peripheral Nervous System	Dominique Durand
1530-1600	Causing a sensation: Development of a Proprioceptive Neural Interface	Lee Miller
1600-1615	<i>Break</i>	
1615-1645	Neural Tissue Regeneration	Ravi Bellamkonda
1645-1715	Potential of Optical Stimulation	Jaimie Henderson
1715-1745	Q & A
